

Amendment

Amendment to Claims

Please amend claim 13 as shown below.

13. (Once amended) A method comprising:

locking a first way of a cache;

accessing a second way of the cache;

accessing a third way of the cache;

prioritizing the first way of the cache higher than the second way of the

cache; and

writing data to the second way of the cache

CLEAN VERSION OF CLAIMS FOR SCANNING PER 37 CFR § 1.121

At Sub  
B1

13. A method comprising:  
locking a first way of a cache;  
accessing a second way of the cache;  
accessing a third way of the cache;  
prioritizing the first way of the cache higher than the second way of the  
cache; and  
writing data to the second way of the cache
